APTRICYPARS OF STUDY AND EXPERI-MENT, Br. Roback, the eminent Swedish Physician, succeeded in producing a medicine from twenty three different species of measurant herbs of his native land, which met directly upon he change of disease in the blood, and by restoring the corrupted fountain of life to a condition of health and purity, expels disease from the statem wherever it may be located, or whitever may be its character. Indignation, persons complaints early stages, sere threat. ague, astuma, low spirits, sexual itempacity, adol ine weakness, pricaling of the skir, syrettemat of persiyels, rhomnatism, neuralgia, turner, cance diabetus, leavitude and debility, distribed, and al er, the kidneys, the stomach, the perwas, or th muscular fiber, are unarringly cured by the propagation. It is to the materies morbi or seeds at case what an athait is to an white it nomicalizes them with absolute certainty, while at the sat time it regulates the storetists removed obstruc-tions from the bowels, creates appliette, seneme buildy eiger, and regularates every actual function. Such is the nature, such are the effect. Dr. Robnok's famous Scandinavian Blood Purific which, if taken in conjunction with his send vian Blood Pills, will not only ablit rate the inco MERCHANDISE, painful disease, but prevent their rectarrings, and lengthen life beyond the ordinary system.

Intermittent Fever, or Pever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of missmatic countries. No one remedy is louder called for by the necessities of the American people than a suro and safe cure for Pever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the discare,

and with assurance, founded on proof, that

no harm can arise from its use in any quan-

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes this risk which he must run in violent attacks of this baleful distemper. This "Cens" expels the missinatic poison of Faven and Acta from the system and prevents the development of the discute, if taken on the first opproach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Favin and Ague prevails, every body should have it and use it freely both for cure and protection It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it pro duces no quinism or other injurious effect whatever upon the constitution. These cured by it are left as healthy as if they had never had the disease

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headach-Blindness, Toothache, Earache, Catarrh, Asth ma, Palpitation, Painful Affection of the Spleen, Hysterica, Pain in the Bowels, Coli Paralysis, and Derangement of the Stomaclall of which, when originating in this cause, put on the intermittent type, or become period ical. This "Cuar" expels the poison from the blood, and consequently cures them al alike. It is an invaluable protection to have grants and persons travelling or temporaril residing in the malerious districts. If taker occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to tipen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, it they are themselves of the protection this remedy af
